

Winners Announced in 2012 Global Awards for Excellence in BPM & Workflow

November 14, 2012—Lighthouse Point, FL. Future Strategies Inc., is pleased to announce the winners for the *2012 Global Awards for Excellence in Business Process Management and Workflow*.

Sponsored by WfMC and now in their 20th year, these prestigious awards recognize user organizations that have demonstrably excelled in implementing innovative business process solutions to meet strategic business objectives.

Nathaniel Palmer, WfMC Executive Director and Industry Analyst noted, “This year we saw a wide array of truly mission-critical solutions, where BPM is the foundation for supporting not only the traditional enterprises we’ve seen in past years, such as banks, utilities and government agencies – but this year we saw even greater diversity with case studies from entertainment, industry and perhaps the world’s most famous first responders, FDNY.”

Lead Judge Keith Swenson said, “I was pleased to see how many companies had interdisciplinary team of customer-facing specialists, business architects, software architects, developers and more from different departments working together on completely new things and in completely new ways of thinking in technology and business models.”

Workflow Management Coalition (WfMC) and BPM.com jointly sponsor the annual Global Awards for Excellence in BPM and Workflow. The Awards program is managed by Future Strategies Inc.

About the Workflow Management Coalition (www.wfmc.org)

The WfMC, founded in August 1993, is a non-profit, international organization of workflow vendors, users, analysts and university/research groups. The Coalition's mission is to promote and develop the use of workflow through the establishment of standards for software terminology, interoperability and connectivity between workflow products. Comprising over 300 members worldwide, the Coalition is the only standards body for this specific software market. The creation of the WfMC Standards Reference Model has proved its importance in other areas of technology, most notably the ISO Seven Layer reference model for computer communications.
